

Make Your **Jewellery** Business **Easy** and **Fast**

Jewellery Accounting Software

www.datacaresoftech.com

OUR SERVICE

We Provide Jewellery Software Solutions for **Retail & Wholesale** Businesses, **Jadtar (Antique) Jewellery Manufacturers**, and the **Imitation Jewellery Industry**.

Retail

We offer robust software solutions for small to large-scale jewellery retail stores, including multi-store management. The system features an accurate and user-friendly POS (Point of Sale) to streamline billing and daily operations.

Wholesale

Our software helps wholesalers efficiently manage metal and amount transactions with a single voucher entry for both sales and purchases. It also supports approval issue/receive, VP parcel handling, and other key wholesale processes.

Jadtar Jewellery

This process-oriented software is designed for antique jewellery manufacturing. It manages melting, metal issue, and wax/ghat/kundan workflows, providing detailed reports to track each step of the production process.

Imitation

Ideal for imitation jewellery businesses, the software includes bulk barcode generation, brand-wise MRP discounts, and comprehensive reporting on product movement, employee-wise sales, and tag-wise tracking of old items.

Jewellery Accounting Software

KEY FEATURE

Scheme/Money Lending

Flexible monthly installment schemes to manage both gold and amount with ease and clarity

Account Management

It Simplifies tracking of financial transactions, balances & expenses. Ensuring accurate records & smooth operations.

Multi Branch

Centralized control for multi-branch and multi-company operations with seamless data flow and reporting.

QR Code Inventory

Effortless barcode & QR code stock tracking with image-based item identification - all in one smart solution.

Karigar Management

Artisan (Karigar) Management simplifies tracking of tasks, work status, and wages, ensuring accurate job progress and payment details.

Mobile Application

Capture item images via mobile and get instant value estimates as per daily rates.

Stock Analysis

It simplifies tracking of inventory, items & stock valuation, ensures accurate & better inventory control.

HARDWARE

We offer a wide range of barcode and IT products, including Barcode Printers, Barcode Labels (Sheet and Roll Form), Barcode Scanners, Carbon Ribbons, and Refurbished Laptops. Our solutions are designed to enhance efficiency, accuracy, and productivity for your business operations.

Barcode Sheet Form:

We offer premium-quality barcode labels in sheet form, ideal for businesses looking for easy application and organized inventory management. Suitable for both Retail and Wholesale businesses.

Barcode Printer:

Our barcode printers deliver fast, clear, and consistent label printing. Built for durability and precision, they are perfect for high-volume usage in various jewellery businesses.

Barcode Gun Scanner:

These handheld barcode scanners are designed for speed and accuracy, making product tracking, billing, and stock management seamless and hassle-free.

Carbon Ribbon:

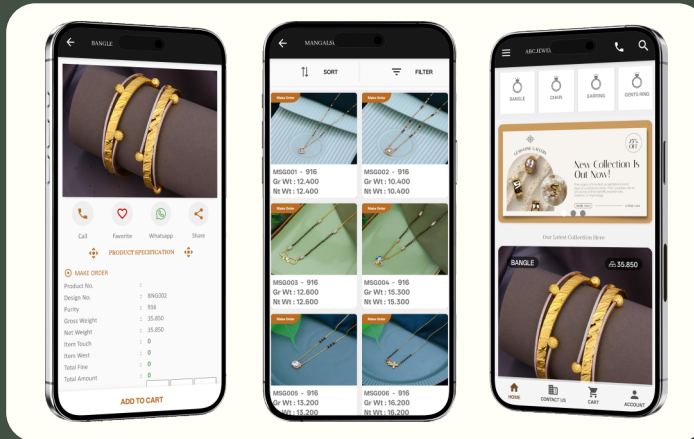

Our carbon ribbons provide long-lasting, high-quality print output with excellent resistance to smudging and fading, ensuring your barcode labels stay readable over time.

Refurbished Laptops:

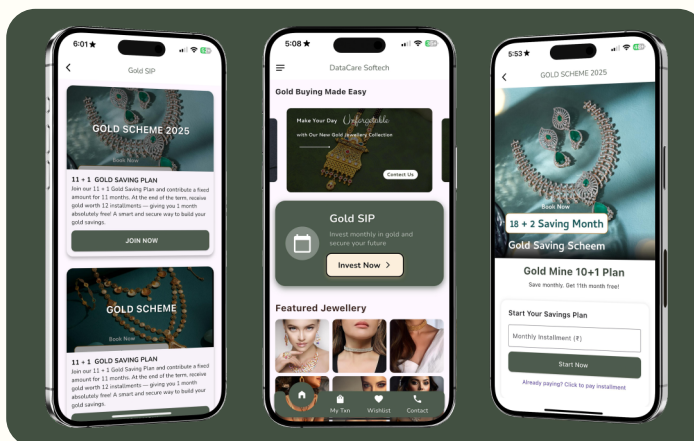

We offer thoroughly tested and certified refurbished laptops and desktops, ensuring reliable performance for cost-effective business operations, including billing, data entry, and administrative tasks.

E-CATALOGUE

DataCare Softech's E-Catalogue is a smart digital solution to showcase your jewellery collection professionally. Featuring high-quality images, product details, and easy navigation, it's perfect for client presentations, exhibitions, and online sharing. Sleek, customizable, and user-friendly, it enhances your brand image and helps in boosting sales effectively.

GOLD SCHEME APP

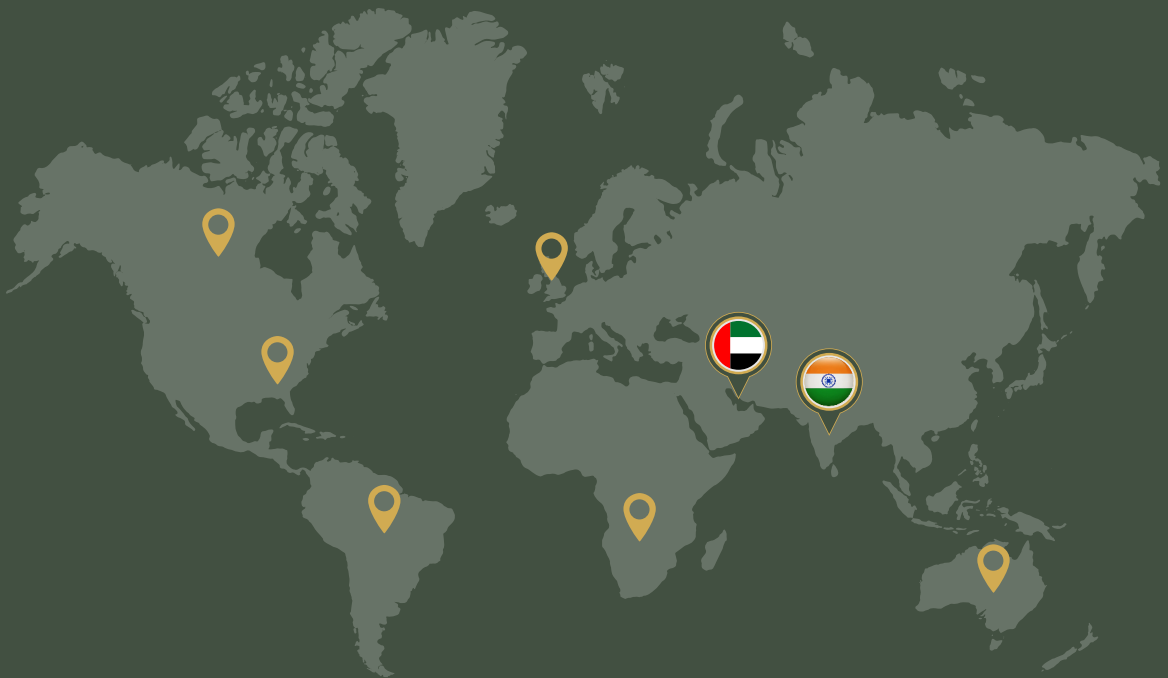

DataCare Softech's Gold Scheme App brings traditional gold saving into the digital era. Customers can easily join, track, and manage schemes right from their mobile. With clear plan details, it ensures a smooth, transparent experience. Perfect for jewellers to build trust and stay connected with their customers.
